MEMORANDUM

SUBJECT: Business / First Class Travel When Protecting the EPA Administrator
FROM: Nino Perrotta, "Acting" Special Agent in Charge, Protective Services Detail
TO: Gail Davis – Travel Coordinator

We are requesting that the EPA Administrator be strategically seated in business and or first class seating when on official travel. We have observed and increased awareness and at times lashing out from passengers which occurs while the Administrator is seated in coach with PSD not easily accessible to him due to uncontrolled full flights. Therefore, we believe that the continued use of coach seats for the Administrator would endanger his life and therefore respectfully ask that he be placed in either business and or first class accommodations.
