Reported Ammonia smell: this been reported over 2 months ago but no one seems to resolve this issue; yes it comes and goes so the polluters must be doing this at different times of the day and night to release ammonia in the air...

To it may concern epa, 311 and

Help Now!!!

I and others are suffering with pollution from these polluters.

Many other polluters in this area.

They need the RAAM mobile unit over here to determine who releases this Ammonia.
